

CECS 311 - Syllabus
Principles of Computer Engineering II
Fall 2022
Instructor: Eric Hernandez

Office Hours:	T/Th 12:30-1:30 P.M. via Zoom or by appointment		
E-mail Address:	eric.hernandez@csulb.edu		
Course Website:	http://www.engreric.com/		
Lecture:	Sec: 1, Class #: 5300,	Mon., Wed., 8:00 A.M. to 8:50 A.M.	VEC-402
Laboratory:	Sec: 2, Class #: 5845,	Mon., Wed., 9:00 A.M. to 10:15 A.M.	ECS-411

A. Description

This is a continuation of 211 into the amazing world of electronics. At the core of all computing and modern devices is the use of electricity to perform meaningful and useful work. This class will focus on the practical applications of electronics and circuits to computing systems.

B. Organization

This is a lecture and lab based course in which topics are presented in the lecture and demonstrated in the lab through a series of projects that build upon each other. It is very important that each lab is completed as most labs will rely on the knowledge gained from the previous one. Successful completion of the course is reliant upon completion of the labs.

Note on Online Format - This semester we are continuing in an online format due to the ongoing Covid pandemic. Classes will be done synchronously, meaning that we will meet and be responsible for all course information during our scheduled lecture and lab time via Zoom. The Zoom link is always available on Beachboard by going to the class of interest and clicking on zoom across the top.

C. Course Objectives

1. To Build upon the fundamentals of 211 and design more useful circuits.
2. To continue learning the operation of electrical devices, components.
3. To learn the applications of these components and how they work together in a circuit.
4. To build an understanding of how to analyze these circuits.
5. To apply knowledge of mathematics, science and engineering to electrical and electronic systems
6. To conduct experiments and interpret data.
7. To identify, formulate and solve engineering problems.
8. To be able to form and test hypotheses. This is vital for debugging and troubleshooting.
9. To effectively communicate results using the nomenclature and jargon of the industry.

D. Course Topics

Fundamentals of Electricity	Semiconductor Materials	Diodes
Linear Power Supplies	Bipolar Junction Transistors	BJT Amplifiers
Field Effect Transistors	H-Bridges	Operational Amplifiers
Comparators	Passive Filters	Active Filters
Switching Power Supplies	Digital/Analog Interfacing	Measuring Instruments
Oscilloscopes	Soldering	

E. Text and Required Materials

Grob's Basic Electronics: (12th Edition) by Mitchel E. Schultz

ISBN-13: 978-0073373874

Modeling Software:

LTSpice – Free full version from Linear Technologies, Use the version available on my website.

Supplies:

Lab Test Equipment, Multimeter, Breadboard, wire and other discrete components (Resistors, Capacitors and Inductors as required). This will be covered during the first day and recommendations are available on my website.

F. Copyright Notice

All materials for this class: syllabus, website, lecture/lab/tutorial videos, lab documents and all other documents pertaining to this class are Copyright © 2021 Eric Hernandez. These materials are protected by U.S. and International copyright laws. Reproduction and distribution of these materials without written permission of the creator is prohibited.

G. Grading Plan

Coursework will be weighted as follows:

- | | | |
|---------------------------------------|-----|--|
| 1. Midterm 1 | 25% | |
| 2. Final Exam | 25% | |
| 3. Final Project | 10% | |
| 4. Labs and Homework | 20% | Late work will lose 10% per day . |
| 5. Weekly Submitted Notes | 10% | No Late Submissions |
| 6. Quizzes, Participation, Attendance | 10% | Lowest Quiz Dropped |

A – 100%-90%

B – 89%-80%

C – 79%-70%

D – 69%-60%

F – 59%-0%

Grades will be curved once at the end of the semester. "Curving" will never cause you to receive a grade lower than the scale above.

G1. Midterm

There will be one midterm exam around week 7 to 8, the specific date of which to be determined during class and announced at least 1 week before. It will consist of all material up to that point of class. Preparatory materials including sample exams are already available on the website. For makeups, please refer to the makeup policy.

G2. Final Exam

There will be one final exam on the last day of instruction, the specific date of which will be determined as we get closer to the end of the semester. The Final Exam is cumulative and will consist of approximately 2/3rd new material and 1/3rd pre-midterm material. Preparatory materials including sample exams are already available on the website.

G2. Final Project

There will be one final project during our scheduled final exam date and time, this is posted later in the semester by the school and is viewable on my.csulb.edu. The final project will require all knowledge gained from previous labs to complete. It will consist of a demonstrable physical prototype and a well written report that demonstrates a clear understanding of theory along with calculations and simulations. Details of this final project including requirements and grading rubric are on the class website.

G3. Labs and Homework

Topics presented during the lecture are demonstrated in the lab through a series of projects that build upon each other. It is crucial that each lab is completed as the lab progression will rely on the knowledge gained from the previous one. Successful completion of the course is reliant upon completion of the labs.

G4. Weekly Submitted Notes

Your notes taken during the lecture and lab are vital to your success. By taking notes as topics are presented you are actively engaging with the lecture, the class and with the material. It is for this reason that I am requiring that all your notes for every lecture and lab be submitted once a week in the dropbox on beachboard. The format will be in PDF and may be done as pictures of your handwritten notes or as any electronic format that is converted and uploaded as a PDF. If the class is on TTH or MW then the notes must be uploaded by that week's Friday 11:59PM, alternatively if the class is held once a week on Friday then you may upload the notes by Sunday 11:59PM. Notes are to be taken by every student on an individual basis. Most topics in the course are conveyed using a schematic, you may not simply take a picture of my work on the whiteboard and submit that as your notes. The whiteboard is my work, not your own. You may also not submit another student's notes as your own. If I see multiple submissions of the same work or just pictures of my whiteboard then the work in question would be considered plagiarized, the students involved would receive no credit and receive a reduction of one letter grade from their final course grade. If there are special cases or a personal situation which makes

this an undue burden then please talk to the instructor in advance of submission in order to figure out an alternative arrangement.

G5. Quizzes, Participation, Attendance

There will be approximately 8 or more quizzes throughout the semester. Quizzes may or may not be announced before hand and they may occur at any time during the lecture or the lab time. It is the responsibility of the student to be available during our scheduled class time for any quiz. Attendance is vital for success in this class and will be checked periodically throughout the semester.

H. Exam/Assignment Makeup Policy

Make-up exams are provided for any excused absence. Excused absences include, but are not limited to:

- Illness, injury to the student, or medical conditions, including those related to pregnancy
- Death, injury, or serious illness of an immediate family member. An immediate family member is defined as a close relative, or a person residing in the immediate household of the student.
- Religious reasons (California Education Code section 89320)
- Jury duty, military service, or other government obligation
- University-sanctioned or -approved activities (examples include but are not limited to artistic performances, participation in scholarly conferences and presentations, intercollegiate athletic activities, student government, required class field trips, etc.)

Anticipated Absences require advanced notification (minimally one week in advance) as well as verification. These absences may include the following reasons:

- Religious reasons,
- Jury duty, military service, or other government obligation
- University-sanctioned or -approved activities

Non-anticipated absences are usually a type of emergency and cannot be anticipated. These absences may include the following reasons:

- Illness, injury to the student, or medical conditions, including those related to pregnancy
- Death, injury, or serious illness of an immediate family member. An immediate family member is defined as a close relative, or a person residing in the immediate household of the student.

A make-up exam will be given for any excused absence with documentation. For example in the case of a medical emergency, documentation may take the form of a doctor's note or if the emergency was an vehicular accident then an accident report would serve as documentation.

<https://www.csulb.edu/academic-senate/policy-statement-17-17-attendance-policy-supersedes-01-01>

I. Cheating/Plagiarism/Academic Integrity Policy

There is **zero tolerance** for cheating, plagiarism, or any other act of violation of Academic Integrity policy. Work that you submit is assumed to be original unless your source material is documented appropriately, using proper citation. Using the ideas or words of another person, even a peer, or a web site, as if it were your own, is plagiarism. Any individual or group caught cheating on homework, lab assignments, or any exam/quiz will be subjected to full extent of academic actions allowed under University regulations.

At a minimum, any student caught *violating the Academic Integrity Policy* will receive no credit for the work concerned, and will receive a reduction of one letter grade from their final course grade.

To learn more about the University policy on Cheating and Plagiarism, visit:

<http://catalog.csulb.edu/content.php?catoid=5&navoid=369#cheating-and-plagiarism>

J. Tentative Schedule (Dates may vary due to holidays and project requirements)

Week 1	Review of Fundamentals - Ohms Law, Power, KVL, KCL, Series, Parallel
Week 2	Semiconductors/P-N Junctions, Ch 27 - Diodes and Diode Applications
Week 3	Ch 27 - Diodes and Diode Applications, Rectifiers
Week 4	Linear Power Supplies
Week 5	Chapter 28 - BJTs - Bipolar Junction Transistors, Switching Circuits
Week 6	Chapter 29 – BJT Amplifiers, Midterm 1 Review
Week 7	Midterm 1, BJT Amplifiers Continued
Week 8	Chapter 30 - FETs - Field-Effect Transistors and FET Circuits
Week 9	Chapter 33 - Operational Amplifiers, Comparators
Week 10	
Week 11	Filters – Passive
Week 12	Switching Power Supplies
Week 13	Filters – Active
Week 14	Digital/Analog Converters, Weighted Summer, Midterm 2 Review
Week 15	Midterm 2
Finals Week	CECS 311 - Final Exam (refer to CSULB schedule for day and time)

K. Class Prerequisites

CECS 211, CECS 201 all with a grade of "C" or better.

L. COE Tutoring Services Available for Major Classes

The College of Engineering Tutoring Center offers free tutoring for many lower and upper division engineering courses in MAE, CECS, CECM, CHE and EE. Tutors are available Monday through Friday during the fall and spring semesters between the hours of 9:00am-6:00pm in EN2-300.

Visit the following website for detailed tutoring schedules:

http://web.csulb.edu/colleges/coe/views/essc/academic_success/engineering_tutor.shtml#asp_ETP

M. Accommodations:

Students with disabilities who need reasonable modifications, special assistance, or accommodations in this course should promptly direct their request to the course instructor. If a student with a disability feels that modifications, assistance, or accommodations offered are inappropriate or insufficient, he/she should seek the assistance of the Director of Disabled Student Services on campus.

N. Sexual Assault, Rape, Dating/Domestic Violence, & Stalking

Title IX prohibits gender discrimination, including sexual harassment and sexual misconduct. If you have experienced sexual harassment, sexual assault, rape, dating/domestic violence, or stalking, the campus confidential Victim's Advocate is available to help. Jaqueline Urtez (e: advocate@csulb.edu, p: (562) 985-2668) can provide free and confidential support, accommodations, and referrals for victims without having to report the assault to campus authorities. While students are welcome to discuss assaults with faculty, both faculty and teaching assistants are mandatory reporters who are required to report all incidents of sexual harassment/misconduct to the Title IX office for follow-up and possible investigation. Students who do wish to report the assault for possible investigation may contact the confidential victim's advocate, who can help them through the reporting process, or they can report the assault directly to the Title IX Office by completing an online reporting form at <https://www.csulb.edu/equity-diversity/title-ix> or contacting the Office of Equity & Diversity at OED@csulb.edu.

O. Food and Housing Assistance

Any student who is facing academic or personal challenges due to difficulty in affording groceries/food and/or lacking a safe and stable living environment is urged to contact the CSULB Student Emergency Intervention & Wellness Program. The website outlining the resources available is www.csulb.edu/basicneeds. Students can also e-mail supportingstudents@csulb.edu or call 562/985.2038. If comfortable, students may reach out to the professor as they may be able to identify additional resources.
